

Gemma Garcia de la Fuente

Senior Data Scientist | Product Owner | Forward Deployed Engineer

Zurich 8064, Switzerland | +41 76 269 8038 | gemmagdlf@gmail.com

Portfolio: gemmagf.github.io/CarearCapital | LinkedIn: linkedin.com/in/gemma-garcia-de-la-fuente | GitHub: github.com/Gemmagf

PROFESSIONAL SUMMARY

Data scientist and product owner who joins teams to turn new technology into working solutions. 4+ years shipping decision-driving models, dashboards and AI tools across banking, marketing, industrial and public-sector problems — from the first conversation with the business to code in production. Comfortable in ambiguity, fast at learning a new domain, and at ease bridging engineers, analysts and senior stakeholders in six languages.

SKILLS

Technical: Python (Pandas, scikit-learn, PyTorch, PyMC), SQL, Claude API & LLM tooling, Vector search (pgvector), FastAPI, React / Next.js / TypeScript, Streamlit, Docker, GitHub Actions CI, Power BI / Tableau / Looker Studio, Power Apps, Git

Methods: Rapid Prototyping, LLM Integration (Claude API, embeddings), Forecasting & Anomaly Detection, Experiment Design, Dashboard & KPI Design, Production Delivery (CI, Docker), Stakeholder Management, Agile (Scrum)

PROFESSIONAL EXPERIENCE

Data & Analytics Specialist - UBS Business Solutions AG – CAO & Risk Integration Office

Zurich, CH | January 2026 – Present

- Built a Power Apps process-control system for the risk areas, replacing manual tracking with automated workflows and live status monitoring.
- Core contributor to a strategic risk-integration programme, on the data and analytics workstream.
- Design and simplify data models to improve governance and usability; automate reporting with AI and analytics tools.

Data Scientist & Product Owner - UBS Business Solutions AG

Zurich, CH | November 2022 – December 2025

- Led the vision, development and delivery of a risk data quality product.
- Product Owner for two critical tools: an anomaly detection dashboard and a statistical validation engine.
- Managed a cross-functional pod of 5 (IT and business) through full agile cycles, cutting project time by 50%.
- Championed the Tableau to Power BI migration across the risk function.

Business Analyst - Google (via Adecco Switzerland)

Zurich, CH | April 2022 – September 2022

- Built a real-time Google Data Studio dashboard tracking user interactions and conversion funnels for a new YouTube feature.
- Defined success metrics and aligned measurement with product and engineering teams.
- Presented insights to senior stakeholders to guide feature roll-out.

Data Scientist - KH Lloreda (KH-7)

Granollers, ES | January 2021 – April 2022

- Developed regression-based sales forecasting models linking marketing spend, geography, and campaign timing to revenue.
- Integrated data from SEO, SEM, TV, Instagram, Facebook, and Amazon Marketplace into strategic dashboards.
- Conducted ROI, ROAS, and CPA effectiveness analysis to guide media allocation decisions.

SELECTED PROJECTS

CV Hunter — AI Talent Matching

FastAPI, Claude API, pgvector, PostgreSQL, React, Docker | gemmagf.github.io/cv_HR/#/dashboard

Sensorlab — Industrial Sensor Anomaly & RUL Lab

Python, scikit-learn, PyTorch, XGBoost, SHAP, Streamlit | sensorlab.streamlit.app

Swiss Governance Dashboard — Cantonal Data Cockpit

Python, Pandas, Plotly, Streamlit, Folium | gemmagf.github.io/swiss-governance-dashboard/dashboard_real.html

EDUCATION

- MSc in Data Science — Universitat Oberta de Catalunya (UOC), 2020–2022
- MSc in Financial Management — Universitat Oberta de Catalunya (UOC), 2022–2024
- BSc in Statistics — Universitat Politècnica de Catalunya (UPC), 2015–2019
- BSc in Psychology — Universitat de Barcelona (UB), 2014–2019

LANGUAGES

Catalan (Native), Spanish (Native), English (Fluent), French (Fluent), Italian (Intermediate), German (Intermediate)
